

# *The Moscow State Technical University of Civil Aviation (MSTU CA)*

**The Moscow State Technical University of Civil Aviation (MSTUCA)** invites young people who want to devote their lives to Civil Aviation and get a very interesting and prestigious profession, become acquainted with experienced and well-wishing professors and make new friends.

**The Moscow State Technical University of Civil Aviation** is a leading aerospace institution of higher education in Russia which trains civil aviation specialists in the maintenance of aircrafts.

The **MSTUCA** graduates get job not only in Civil Aviation and transport field but also in other industries. The University cooperates with many foreign educational institutions and trains foreign students from more than 35 countries.

The University departments are headed by experienced scientists-academicians. There are professors and academicians from different public and scientific Academies in Russia and abroad. Renowned figures of science and technology are among them. The training and research laboratories are equipped with modern computers, instruments and devices, stands, simulators, working models of aviation equipment, technical training and knowledge test aids. This makes it possible to conduct classes and carry out scientific work at modern level of science and technology.

The University library contains textbooks on specialties of all the departments; there are publications on actual problems of science, technology and social sciences. It is one of the best aviation-oriented libraries in Russia.

Digital library resources are part of the **MSTUCA** library, which is regularly replenished by works of our University professors.

The **MSTUCA** has a hostel located in a park near the University and the underground station. The students live in rooms for 2 or 3 persons. Living alone is possible if there is an available room. There are good conditions for studying in the hostel too.

The University's facilities provide good conditions for amateur activities, student's festivals, concerts of masters of art and popular musical groups. The University has a sports complex and many athletes clubs.

Foreign students have classes together with Russian students. Studying is conducted in Russian language.

Foreign citizens, who speak Russian, take the admission exams for the first year course at the **MSTUCA**.

Foreign citizens, who do not speak Russian, have an opportunity to take a one-year Pre-University course.

## Admission for 2020/2021 academic year

NAME of COURSE:	DURATION	TUITION FEES rub per year
<b>BACHELOR DEGREE:</b>		<b>Intramural</b>
25.03.01 Technical operation of aircraft and engines, profile: Maintaining the airworthiness of the aircraft	4 years	318 000
25.03.01 Provision of aircraft flights with aviation fuels and lubricants and special liquids	4 years	318 000
25.03.02 Maintenance of aircraft electric systems and avionics	4 years	318 000
20.03.01 Technosphere safety	4 years	274 000
09.03.01 Informatics and computer science	4 years	274 000
01.03.04 Applied mathematics	4 years	244 000
23.03.01 Technology of transport processes	4 years	274 000
25.03.03 Air navigation "Air transport business processes"	4 years	318 000
<b>MASTER DEGREE:</b>		
25.04.01 Maintenance of aircrafts and engines, profile: Aircraft technical and technological processes maintenance management	2 years	340 000
25.04.01 Maintenance of aircrafts and engines, profile: Aircraft fuel supply technological processes management	2 years	340 000
25.04.02 Maintenance of aircraft electric systems and avionics	2 years	340 000
<b>SPECIALISTS (Engineers)</b>		
25.05.03 Maintenance of transport radio equipment	5,5 years	452 000
25.05.05 Operation of aircraft and air traffic management, specialization «Maintenance and repair organizing of aircraft»	5 years	452 000
25.05.05 Operation of aircraft and air traffic management, specialization «Maintenance organizing of aircraft and aircraft electronic equipment»	5 years	452 000
<b>The Pre University course</b>	<b>1 year</b>	

Students who are trained under 25.03.01 have an opportunity to study on self-payment bases on Program Type Training Boeing 737-3/4/500 Cat. B1, according to the European requirements, on the basis of the European University after the third year.
